## **OHIO STATE DEPARTMENTS**

### **OHIO DEPARTMENT OF TRANSPORTATION**

The State Bicycle/Pedestrian Coordinator provides technical assistance regarding bicycle and pedestrian project design, and funding, tracks progress and expenditures of bicycle and pedestrian enhancement projects from time of selection until open to the public, and maintains the state bikeway inventory for inclusion in the Map and List of Ohio's Bikeways.

The ODOT Bicycle Home Page (<http://www.state.oh.us/bike/Default>) provides project information for the bicyclist (e.g., newly opened paths, paths under construction), and access to such diverse items as the Ohio Bicycling Street Smarts, project design guidance, and a list of Ohio's bike shops.

You can request a packet of bicycle information or the Map and List of Bikeways at <http://www.dot.state.oh.us/bike/brochurerequest.htm>. "What's in a Packet" is a link on the home page wherein the many items included in a packet are listed. The order form for ODOT's county maps (mentioned below) is included.
