

Appendix D – Technical Manuals

The *Project Development Process Manual* provides an overview of the activities that occur in each step of the PDP. Most users of this Manual will need to refer to ODOT technical manuals to obtain additional detailed technical information. A list of these manuals is provided below. Up to date copies of these manuals can be printed from the Design Reference Resource Center (<http://www.dot.state.oh.us/drrc/>). This website provides a link to the publishing office as well as an opportunity to subscribe to receive email notification of updates to these publications.

- Aesthetic Design Guidelines
- Analysis and Abatement of Highway Noise Policy
- Bridge Design Manual
- Construction and Material Specifications
- Construction Inspection Manual of Procedures
